Where to Go from Here

Teddy Thompson

The safe lie of the in between
I never lose but never win
I wait at the edge of life
I want to miss what might surpriseIt's hard to know where to go from here
Hard to know where to goTime is a waste of me
I'm up at noon for nothing real but I know
Oh, that I'm wasting it
It comes on once, there's no repeatIt's hard to know where to go from here
Hard to know where to goTurn away, it's what I choose today
Turn away, is not the same as I give inIt's hard to know where to go from here
It's hard to know where to go from here
It is hard to know where to go
