

Slipping

[SirensCeol](#)

-Verse 1-

You can take me all the way,
Into the next sky, we'll fly for space,
And I can dance beneath the moon.
I feel your heartbeat slipping too.-Chorus-

You and I keep slipping.
Hold this heart, and with two hands.

You and I drift away,
I fear they can't understand slipping.-Electronic Rift--Verse 2-

You wanna feel, you push right through.
and this burning, may hell move.
It's all co-sign, can breathe you in.
I bet you heard me slipping too.
You and I.. (x2)-Voice Splicing--Electronic Rift-
