

Oil of Angels

Cocteau Twins

First

He's inched her latch down, anxious
Her hand begs my distraction, distraction I will learn, to focus on you
Oh, you 'cause you won't
Recognize it, stabilize it Things take, take me
To exception look for respect, respect
Down, down, down there
You're not a nice track footfall, round Will we still hold rain?
Things we couldn't do, strive
For me to leave Rights of her, Rights
Treasure her, treasure
Her freshness First
He's inched her latch down, anxious
Her hand begs, my distraction, distraction I will learn, to focus on you
Oh, you 'cause you won't
Recognize it, stabilize it He even finds a way
Supreme, man improves
Like what might see
Her life for everyone Will it still hold rain?
Things we couldn't do, strive
For me to give Rights of her, rights
Treasure her, treasure
Her freshness
I will learn to focus on you
