We Both Know

Swelter

They all say it, all the ones who made it
Want to find the one you claim it
But you?re gonna have to fight
When I think it back, the things that threw us off track
We handle like a heart attack cause we didn?t see the light
Uh-uh-uh and yeah.now...
We both know our.... own limitations
That?s why we?re strong
Now that we spend some time apart
We?re leading each-other out of the dark,
Cause we both know
From this moment, forget what we were scared of
Say you?re never giving up
Say you?ll always try to be my helping hand
Try to be the one who understands
When things don?t go as you planned
We?re still worth it all
Uh-uh-uh and yeah, now.....

We both know our own limitations
That?s why we?re strong
Now that we spend some time apart
We?re leading each-other out of the dark,
Cause we both know
What we?re scared of
What we?re scared of
And what dreams are made of
And what dreams are made of
They could take us further than what anybody can see, yeah
We both know our own limitations
And That?s why we?re strong
Now that we spend some time apart
We?re leading each-other out of the dark,
We both know our own limitations
And That?s why we?re strong
Now when we s?end some time apart
We?re leading each-other out of the dark,
Cause we both know
We both know
