

Here With Me

REO Speedwagon

Maybe it's too late
But this feelin' is runnin' through my soul
Think I've learned what love is
But I'm afraid, I let it go Maybe it's too late
Maybe you've already changed your mind
Turned lovin' into leavin'
And I'm on the outside You can't take these words to bed with you
And hold onto them at night
They can't erase the emptiness
And make everythin' alright But your laughter and your tenderness
Will never disappear
No matter where you are tonight
A part of you is here with me Here with me, I don't know where you are
All I know is I need you to be
Here with me, I know it's not too late
To turn around and get it straight
It's my fate to have you here with me I can hear your voice promisin'
Your love will never die
I can feel your golden skin on mine
Beneath the desert sky So how can it be true?
How can you just turn and let me go?
Let the story of your life with mine
Forever go untold I can't take these words to bed with me
And hold onto them at night
They can't erase the emptiness
And make everythin' alright 'Cause your laughter and your tenderness
Will never disappear
No matter where you are tonight
A part of you is here with me Here with me, I don't know where you are
All I know is I need you to be
Here with me, I know it's not too late
To turn around and get it straight
It's my fate to have you here with me Here with me, I don't know where you are
All I know is I need you to be
Here with me, I know it's not too late
To turn around and get it straight
It's my fate to have you here with me Here with me, I don't know where you are
All I know is I need you to be
Here with me, I know it's not too late

To turn around and get it straight Here with me, oh, you're here with me
I don't know where you are, don't know where
All I know is I need you to be
Here with me, I know it's not too late
Know it's not too late
To turn around and get it straight Here with me, yeah, yeah, yeah
I don't know where, I don't know where
Don't know where you are
