Electric Eye

Judas Priest

Up here in space I'm looking down on you My laser's trace Everything you doYou think you've private lives Think nothing of the kind There is no true escape I'm watching all the timeI'm made of metal My circuits gleam I am perpetual I keep the country cleanI'm electric, electric spy I'm protective electric eyeAlways in focus You can't feel my stare I zoom into you You don't know I'm thereI take a pride in probing All your secret moves My tearless retina Takes pictures that can proveI'm made of metal My circuits gleam I am perpetual I keep the country cleanI'm electric, electric spy I'm protective electric eyeElectric eye In the sky They feel the stare So always there There's nothing you can do about it Develop and expose I feed upon your every thought And so my power growsI'm made of metal My circuits gleam I am perpetual I keep the country cleanI'm electric, electric spy I'm protecting electric eyeI'm electric, electric spy I'm protecting Protective, detective Electric eye
