

# That's the Way

## Benjamin Orr

She'll get you mystified  
You're going for a ride  
You can let it drop  
Well, you can take the hit  
Or you can miss the ship  
Or you could take the top That's the way I want  
I gotta see you anyway, yeah Well, you can jump the fence  
Or you can have some sense  
Or you can call a cop  
Or you can close the book  
Or you can just unhook  
And all I know is  
You can have some if you want to  
(Don't close your eyes)  
Or I could show you if you want to  
But all I know is That's the way I want  
To shake you and take you down  
All the way, yeah  
(I tell ya)  
That's the way  
All the way Well, you can take what you want to  
(Don't close your eyes)  
You can do what you like  
(Don't close your eyes)  
Just something else to get through  
(Don't close your eyes)  
But you got what you win  
It'll come around again anyway  
Well, you can take what you want to  
(Don't close your eyes)  
You can do what you like  
(Don't close your eyes)  
Just something else to get through  
(Don't close your eyes)  
But you got what you win  
It'll come around again anyway You can take the piece  
You can shake the squeeze  
You can let it drop  
Well, you can take the pass

You can break the glass  
But all I know is That's the way I want  
To shake you and take you down, yeah Well, you can motor back  
You can counteract  
You can shut it down  
Well, you can take the hint  
Or you can transmit  
And all I know is Well, you can have some if you want to  
(Don't close your eyes)  
I can show you if you want to  
But all I know is That's the way I want  
To shake you and take you down, yeah  
(I tell ya)  
That's the way  
All the way Well, I gotta  
Shake you and take you down  
That's the way, all the way Yeah, yeah, yeah  
(I want to)  
All the way  
I'm gonna  
Shake you and take you down  
I'm gonna  
Oh, yeah, yeah
