Everywhere You Go

Lawson

Suicide when Im not with you.
Shutter fly of sparks when I kiss you.
Butterflies at the sight of you.
And my heart will never be the same again.Oh oh, never forget all the things that I told you.
Oh oh, Im never gonna let you down cos,Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, Ill be there.Ill be there when your heart is breaking,
Ill be there when your walls are shaking.
Ill be there when your hope is fading, oh.The universe stops when youre with me,
Fireworks burning endlessly,
Wont close my eyes, and I wont miss a thing,
Cos my heart will never be the same again.Oh oh, never forget all the things that I told you.
Oh oh, Im never gonna let you down cos,Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, Ill be there.Ill be there when your heart is breaking,
Ill be there when your walls are shaking.
Ill be there when your hope is fading, oh.No matter where you are,
No matter what you do,
A thousand miles apart, Ill be there cos,Everywhere you go, my heart will follow,
Down this broken road, I will be your shadow.
When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, Ill be there.Ill be there when your heart is breaking,
Ill be there when your walls are shaking.
Ill be there when your hope is fading, girl I will be your shadow.When your heart is burning cold, and your world keeps throwing stones,
Everywhere you go, Ill be there.Suicide when Im not with you.
