

Stoned

Enuff Z'nuff

High
High Worlds of thoughts, an endless space
Sometimes even underground
Helpless in the human race
And hopeless when the sun goes down If you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stoned High All around, temptation calling to me
Calls me by my name
Darling tasting your sweet apples
More tempting than cocaine If you give me a load, if you give me it all
I promise, the world I can make it
One thing I know, if you leave me alone
I'm stoned People all around me seem to bluff
To get me on the thing
Hope, my darling, you could save
Take me home, I'll be a king If you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stoned If you give me a load, if you give me it all
I promise, the world I can make it
The one thing I know, if you leave me alone
I'm stoned Stoned
Stoned High
