Any Way

Darden Smith

You spread your love like broken glass
Beautiful to see
Lead me down the garden path
Trying to make me bleedIs that any way to treat your lover?
Is that any way to treat your lover?You say, I have your heart and soul
And will not be denied
But on those nights I need you so
It's never a good timeIs that any way to treat your lover?
Is that any way to treat your lover?Now would the stars ever so ungrateful to the sky?
Would the sun ever be too proud
To let the moon shine it's light?
Would the wind ever be jealous of the breeze?Tell me, why do you do these things to me?
Tell me, why do you do act that way to me?Is that any way to treat your lover?
Is that any way to treat your lover?
