

# Any Way

**Darden Smith**

You spread your love like broken glass  
Beautiful to see  
Lead me down the garden path  
Trying to make me bleed Is that any way to treat your lover?  
Is that any way to treat your lover? You say, I have your heart and soul  
And will not be denied  
But on those nights I need you so  
It's never a good time Is that any way to treat your lover?  
Is that any way to treat your lover? Now would the stars ever so ungrateful to the sky?  
Would the sun ever be too proud  
To let the moon shine it's light?  
Would the wind ever be jealous of the breeze? Tell me, why do you do these things to me?  
Tell me, why do you do act that way to me? Is that any way to treat your lover?  
Is that any way to treat your lover?
