G.E.S.

Nellie McKay

There you are There you're good and gleaming There you are There you're bold and beaming There you sit Every bit built to lastThere you were There you traveled slowly There you were You were life unfolding Now you've quit Now they've broken the mastDoo doo doo doo doo doo The town's for sale Doo doo doo doo doo It never failsAnd I can make it happen And I can make it fun And I can watch it flatten out And I can make it run
