Love Me Back

Billy Burnette

Love me back, love me back
I gave you all my lovin and that was that
Now Im out here on a limb thats about to crack
Im walkin on a wire thats about to snap
Baby, wont you love me back?I gave you all my love
You know thats a fact
Im out here on a wire
Thats about to snapLove me back
Baby, come to my rescue
Love me back
Just the way you used to doLove me back
Baby, dont say were through
(When)
Im stuck out here in love with youLove me back, love me back
I gave you all my love you know thats a fact
Im out here on a wire thats about to snap
So baby, wont you love me back?Im drifting on an ocean
Deep in misery with just a sea of blue
Between you and me
So love me backLove me back, love me back
I gave you all of my lovin and that was that
Now Im out here on a limb thats about to crack
Im walkin on a wire thats about to snap
Baby, wont you love me back?Love me back
Cant you see my hearts about to break?
Love me back
Before they carry me awayLove me back
Honey, please reciprocate
Cause any minute now its gonna be too late to
Love me backLove me back, love me back
I gave you all of my lovin and that was that
Now Im out here on a limb thats about to crack
Im walkin on a wire thats about to snap
Baby, wont you love me back?
