

Sunshine

Little Dragon

You are my sunbeam when skies are dark
You got me flying, way beyond.
Cause Ive been wandering and feeling lost,
Now, like whirlwind, you put a spell on me.
Have been dragging my feet along sleepless everyday,
I couldnt figure out a thing.
Until your lightbeam came crashing in
Waited five seconds, soaked in some magic, shoot across
To transform my every loss,
But then you came storming.
You are my sunbeam when skies are dark
You got me flying way beyond.
Cause Ive been wandering and feeling lost,
Now, like whirlwind, you put a spell on me.
Your electric ways had me right then
Me and my ghost of the past, get him tied down.
Waited five seconds, soaked in some magic, come across
To transform my every loss, but then you came storming in.
You are my sunbeam when skies are dark
You got me flying way beyond.
Cause Ive been wandering and feeling lost,
Now, like whirlwind, you put a spell on me.
Ye-eh-eh-y.
