

# Couple Of Days

## Bowling For Soup

I'm taking a vacation from the way she brings me down  
A thousand beer soaked love songs scattered on the ground  
In little stacks of disappointment and little piles of hope  
I decided to think positive, and this is what I wrote I wanna take you with me, across the biggest ocean  
To a sunny place, no one ever goes  
We can dance and sing your favorite song through memory  
There won't be electricity and maybe we can stay  
Together there forever or at least for a couple of days You have to build a shelter, but I do at least half the work  
You can make us breakfast wearing nothing but my shirt  
And when it rains we can run naked no one else will see  
All the stuff I planned to do to you and what I'll be doing to me  
And by stuff I mean having sex and stuff  
I'm pretty sure you knew that I wanna take you with me, across the biggest ocean  
To a sunny place, no one ever goes  
We can dance and sing your favorite song through memory  
There won't be electricity and maybe we can stay  
Together there forever or at least for a couple of days We'll go to a place where the sun is brighter  
And the weight of the world is brighter  
I can learn you how to fish before we go  
And you can learn to light a fire  
And me I wanna take you with me, across the biggest ocean  
To a sunny place, no one ever goes  
We can dance and sing your favorite song through memory  
We'll make some electricity  
You and me, across the biggest ocean  
To a sunny place, no one ever goes  
We can dance and sing your favorite song through memory  
There won't be electricity and maybe we can stay  
We'll do it in the ocean like we did Saint Patrick's day  
Together there forever or at least for a couple of days
