

Once I Had a Woman

[Jimi Hendrix](#)

Once I had woman
Lord knows she was good to me in every way
Yes I had a woman, a real woman
Lord, she gave me lovin both night and day
No sunshine, for my woman
Where else, where else are you tryin to take me one lonely day
(let me tell ya somethin)
She ran way down to Dallas
Way down in Texas land
Lord, she had me wrapped around her wrist, and around her finger
Like a ring wrapped around the third finger of a severed hand
Lookin for my Dallas honey bee
Where can you beeeeeee?
Where can you be?
Lord help me
