

Beat to My Melody

Lena

(You're the beat to my melody)
(You're the beat to my melody)
(You're the beat to my melody)
(You're the beat to my melody) You're the beat to my melody
And you understand me
Lines connect so easily
And you're speakin' my language Tune in to my frequency
'Cause you lift me up above it all Whoah yeah, whoah yeah
You got me singin' in my sleep
Whoah yeah, whoah yeah
So keep me dreamin' on my feet I've been singing 'bout love like I know how it feels
I was living without ya
I was getting it wrong, now I know what it means
I was living without ya You're the beat to my melody
You're the beat to my melody
You're the beat to my melody
You're the beat to my melody You're the beat to my melody
You're the epicenter
Something new inside of me
That I cannot measure You're the beat to my melody
Like a huge adventure growin' in my heart Whoah yeah, whoah yeah
You got me singin' in my sleep
Whoah yeah, whoah yeah
So keep me dreamin' on my feet I've been singing 'bout love like I know how it feels
I was living without ya
I was getting it wrong, now I know what it means
I was living without ya You're the beat to my melody
You're the beat to my melody
You're the beat to my melody
You're the beat to my melody I've been singing 'bout love like I know how it feels
I was living without ya
I was getting it wrong, now I know what it means
I was living without ya You're the beat to my melody
You're the beat to my melody
You're the beat to my melody
You're the beat to my melody You're the beat to my melody
You're the beat to my melody
You're the beat to my melody
You're the beat to my melody
