

Spiritual Warfare

Haystak

Sometimes you wanna write a rap that's just emotional you know...just vent about ya know personal shit.....and then you remember there's fuck boys out here....

And I can't explain how much this hurts and I can't take this anywhere except Church.

Back at the altar
Repenting for sins
I committed
Since I was here last I'll probably be back again
I can't walk straight for nothing
God is love
But the devil is a mother fucker
Got the world sewed up and I'm so caught up in the world
Men bring it upon themselves
But I feel sorry for the girls
Babies raising babies
This shit is crazy
How do we expect a generation of ladies
????
Abuse they mommas
Wang gang
To try to confuse they mommas
As a result the child called grandma momma
But I can't say nothing I called my grandma momma

HOOK

Spiritual warfare..
We're all in danger
Are you an Angel aiming at demons or a demon aiming at Angels
Spiritual warfare
There's no neutrality
Spiritual warfare
Spirituality
Spiritual warfare but you don't see the bullets fly
I guarantee you won't live this life a second time
Spiritual warfare boy you better pick a side
Cause ain't no way you can run and hide
Spiritual warfare

Prisons full of p.o.w.s

Devils got em in the game
Got em right where he wanted em
And knocked em out the frame
But I believe that Jesus is the key to success
And they truly understand ???
But yet I'm still hethanistic
Feeling like if I leave who's gonna feed the misfits
So long I been caught up fighting this shit
So tired because I'm under
Conviction
I got an Angel on my right shoulder
Devil on my left
Everytime they shoot at one another it goes through my head
Each one trying to tell me what's best
While they tuggin at my heart and I'm praying for my breath
I leave a puddle at the altar call
I put a stack in the plate
But you can't pay God off
-Nobody-
I pray over my babies are my lady when I'm gone
And I see them blue lights there ain't gonna be no comin home

HOOK

God got plans for me
Evidently
I know because it's so many demons out to get me
Demons and drugs
Violence and greed
Demons that insist on chasing cheese
But the world be against me
God be with me
We gonna still have victory
He gonna get the glory
I'm gonna get some war wounds
I may get some more soon
In the middle of a shootout between the devil and the Lord fool
I'm a whale in these waters and I only fear a harpoon
Big fish...Small town
Real life ???
Highway to hell and I keep mashing the pedal
Like I can't wait to get my shot at the devil
For all the agony and pain that he brought on my family
For all the people that he took from me
He know what he done to me

God thank you for the foresight
Which gave me more light
Let me survive the red light

AMEN
