

# Silhouette (feat. Gábor Kovács)

# Orient Fall

Hey, what and what we gonna' tell you?

Standing at the edge of our truth: we wear our war on mindfields!

Take your chance to wake up from your daydream! It's a plain white progression and a certain arrival:

# AWAKE RIGHT NOW!

It's so good to breathe again, fulfill to awake:

AWAKE RIGHT NOW! This is a symbol of fracture, a symbol of heart;

our senses are repeating to the sound!

Callosity designed at the natal of our life:

We maintain for a supply framed in your dreams!

We call it out do not obey to the sound! Beyond the frequency range of visible light,

towards the sun and scream it from your heart:

Infinite - i am - infinite / infinite - we are - infinite! Substance of the point within the untoachable,

a useless effort to seek for an empty silhouette! Beyond the frequency range of visible light,

towards the sun and scream it from your heart!

If the doors of perception were cleansed

Everything would appear to man as it is:

Infinite - i am - infinite / infinite - we are - infinite! Substance of the point within the untoachable,

a useless effort to seek for an empty silhouette!
