

Monsters in the Ballroom

In Flames

Without the sense of space or time
The infinite
The endless static
The doubt. We never had a wayLet us play a game
If you take my hand
I'm going to get you out of here
Away from the monsters in the ballroom
And the swinging chandeliersTormented minds they wander
Drifting away from the light
I will lift you up my friend
You have to learn to breathe againUnlock the secrets
Let us find the memories
Find ourselves some ruins
Turn them into somethingYou are lost within
Fading out
A world that threw you away
