

# Spell It Out

## Embrace

Here's my list of all the things I should have said and done  
The boats I missed and all the fights I lost, I really should have won  
And I'm not the only one But I won't bow or take the world as you would hand it down  
So leave me out of all your plans 'cause I don't need them now  
I'll find my own way out 'Cause when you're left with nothing, there's nothing left to lose  
That's when they'll come looking for me and you  
Once we wanted nothing and everything was new  
It was all laid out just for me and you now Wave goodbye I know that I'll believe if you spell it out for me  
Spell it out so everyone can see  
All that really matters now to me is that I could set you free  
My hands are tied and I can't find my feet Sit by me for long enough and watch your enemies  
Float downstream one by one until you realize you're free  
There's no one left but me 'Cause when you're left with nothing, there's nothing left to lose  
That's when they'll come looking for me and you  
Once we wanted nothing and everything was new  
It was all laid out just for me and you now Wave goodbye 'cause I know I'll believe if you spell it out for me  
Spell it out so everyone can see  
All that really matters now to me is that I could set you free  
My hands are tied and I can't find my feet This sweet old world will give it out until it's time to leave  
I won't hurt for you when all you want's a flawless victory  
How wrong could anyone be? 'Cause when you're left with nothing, there's nothing left to lose  
That's when they'll come looking for me and you  
Once we wanted nothing and everything was new  
It was all laid out just for me and you now Wave goodbye, I know that I'll believe if you spell it out for me  
Spell it out so everyone can see  
All that really matters now to me is that I could set you free  
My hands are tied and I can't find my feet
