

Find a Way (feat. ALICE MK)

RAC

They'll find all our wildest dreams
In crumbled folds, old magazines
Take time out to make a call
Until the steps and let it fall I can't see what it starts to me
It swallows up your heart
I can't see what the bleeding brings
You roll up, you fall apart Find a way, find a way
Through the darkness, through the haze
Find a way, find a way
We are too far to go back home
And you don't have to see it take
All the strength you've built to make a way
Find a way through the darkness, through the maze
We left all our oldest things
And boxes we will never need
Let go of the colder thoughts
You're freezing up the seconds lost I can't see what relayed me
Swallowed up our hearts
I can't see what the bleeding brings
You just have to let it start Find a way, find a way
Through the darkness, through the haze
Find a way, find a way
We are too far to go back home
And you don't have to see it take
All the strength you've built to make a way
Find a way through the darkness, through the maze
Tears through trials, flooding deserts
Stretch for miles, under pressure
Roots from fires, coal like treasure
Climbing higher, forever better Find a way, find a way
Through the darkness, through the haze
Find a way, find a way
We are too far to go back home
And you don't have to see it take
All the strength you've built to make a way
Find a way through the darkness, through the maze Find a way, find a way now
Find a way, find a way now
Find a way, find a way now
Find a way, find a way now
