Out Loud

Austin Collins

Hey, friend why do we always hide?
It's no wonder that we're sinking down
Why should we stand in lonely shadows
With so much light around?
Hey, friend why do we always cry?
So many tears are going to dry us out
Whatever they're selling we've gotta stop buying
'Cause our pockets are empty now
I've thought about it and I've prayed about it
Out loud, out loud
And we can talk about it, we can pray about it
Out loud, out loud
Hey, friend why are we always fighting?
Who's left here when everybody's gone
I know we're afraid when love is trying
To save any how
And I've thought about it and I've prayed about it
Out loud, out loud
And we can talk about it, we can pray about it
Out loud, out loud
Ain't it time we need a change
We need to change a few things, a few things
I think it's time we need a change
We need to change a few things, a few things
Well, I've thought about it and I've prayed about it
Out loud, out loud
And we can talk about it, we can pray about it
Out loud, out loud
