

# Hate Me Now

d

im so damn scared of doubt  
as i am listening to the rain  
until i figure out  
i don't think ill get up again

dont make me kill this  
dont make me break us down  
its alright for you to  
HATE ME NOW

i still feel guilty  
even though youre not around anymore  
it doesnt help me  
even though i closed the other door

dont make me do this  
i really dont know how  
its alright for you to  
HATE ME NOW
