Catch Me When I Fall

[Stitched Up Heart](#)

I am surrounded by the darkness
Got caught by gravity
This atmosphere is grabbing me oh
Torn apart by all the madness
Starting to pick up speed
I can't break freeCatch me when I fall
Before I've lost it all
When everything comes down
Crashing all aroundCatch me when I fall
Blinded by the light
Crashing through the sky
Like a meteorite
So catch me when I fallChipping away, scraping the surface
And every piece of me
Sheds for all the world to see oh
Through all of this
I feel so helpless
I see the ground beneath
Or so it seemsCatch me when I fall
Before I've lost it all
When everything comes down
Crashing all aroundCatch me when I fall
Blinded by the light
Crashing through the sky
Like a meteorite
So catch me when I fall
So catch me when I fallOh, I am weak
I could break
Oh so delicate
Crushed
By the weight
Of the pain
I could breakCatch me when I fall
Before I've lost it all
When everything comes down
Crashing all aroundCatch me when I fall
Blinded by the light
Crashing through the sky
Like a meteorite

So catch me when I fall
