

# God Bless the Bride

[Kevin Coyne](#)

Well, God bless the bride, the sun shines on today  
I said, God bless the bride, the sun shines on today  
Well, God bless her roses and God bless her veil  
God bless her love, I hope it don't fail  
Well, God bless the bride, the sun shines on today Well, God bless the groom waiting in the sun  
Well, God bless the groom waiting in the sun  
Well, God bless his suit and God bless his hair  
God bless his love, hope he gets there  
Well, God bless the groom waiting in the sun Well, God bless the hotel standing by the sea  
Well, God bless the hotel standing by the sea  
Well, God bless its room with the little pot dogs  
God bless the tudor and God bless the logs  
Well, God bless the hotel standing by the sea Well, God bless the family they have left behind  
I said, God bless the family they have left behind  
God bless the mother and God bless dad  
God bless the sister, hope she's not sad  
Well, God bless the family they have left behind Well, God bless the night-time, that's the time for love  
I said, God bless the night-time and that's the time for love  
God bless the gowns and God bless the bed  
God bless the love light over their head  
Well, God bless the night-time, that's the time for love Well, God bless the future and I hope it's not too dim  
I said, God bless the future, I hope it's not too dim  
Well, God bless the babies and God bless the house  
Keep the garden tidy, keep the problems out  
Well, God bless the future, I hope it's not too dim
