# Justified

## Billy Boone Smith

I've tried everything I know
Just to earn a piece of mercy for my soul
Despite my strain
Guilty I remained
Then I found forgiveness, I found grace
All condemnation You've erased
Taking my death and giving me life
I have been justified
You gave hope a place to stand
Paying all the cost Your holiness demands
Free from all
All that I deserve, oh, yeah
I found forgiveness, I found grace
All condemnation You've erased
Taking my death and giving me life
I have been justified
There's freedom from my darkest hours
There's freedom to be in the light
There's freedom I am blameless in Your sight
Taking my death and giving me life
I have been justified
I found forgiveness, I found grace
All condemnation You've erased
Taking my death and giving me life
I have been justified
I have been justified
I have been justified, oh, yeah
Justified
