Directions

DULO

Baby if you tryin' to get to good love you gotta
Follow the directions
I can tell that you never been in you
Waste a lot of time 'cause you tryin' to find
This place but it ain't in a phone book
And what you heard is wrong so it ain't no need to look
You heard a lot about it and now you wanna go
But the secret is girl you gotta know
Somebody that's been there before
And girl you lookin' at 'em, oh girl you lookin' at 'em
If you wanna go there
I'm a show you how but you can't be scared
Listen close and pay attention
And follow the directions
You gonna make a left on touchin' Boulevard and
When you see Kissin' Street
Make a right, keep straight and go all the way
And that will run you into good love
Don't get me wrong I ain't been a lot
But I been enough to know where the spot is
And girl I promise I can get you there in minutes
And stay long as you want I'll be with you 'til your finished
You heard a lot about it and now you wanna go
But the secret is girl you gotta know
Somebody thats been there before
And girl you lookin at 'em, ooh girl you lookin' at 'em
If you wanna go there
I'm a show you how but you can't be scared
Listen closely and pay attention

And follow the directions
You gonna make a left on touchin' Boulevard
And when you see Kissin' Street
Make a right, keep straight and go all the way
And that will run you into good love, ooh
It wont take long to get you there
No signs, no lights, no traffic
Enjoy the ride, girl, you're in my care
And I know just what I'm doin'

I'm a pro behind the wheel
Trust me I got skills
To take you where you wanna go, oh
So before you get in I need to know if
If you wanna go there
I'm a show you how but you can't be scared, now
Listen closely and pay attention
And follow the directions, yeah
You gonna make a left on touchin' Boulevard
And when you see Kissin' Street
Make a right, keep straight and go all the way
And that will run you into good love, yeah
[Incomprehensible] good love
[Incomprehensible] good love
[Incomprehensible] good love
Follow the directions
[Incomprehensible] good love
[Incomprehensible] good love
[Incomprehensible] good love
Follow the directions
