Sleep Alone

The Electric Soft Parade

This is what I say
When I can't say to you
This is what I do
When I can't say to you

Out of time, out of touch
And on through the dark nights
We sleep alone
As if all we know is true

This is what I say
When I can't say to you
This is what I do
When I can't say to you

Out of time, out of touch
And on through the dark nights
We sleep alone
As if all we know is true

What it takes to feel
To be alone
