

Jealousy

702

Oh yeah
Oh yeah, yeah
It's like I hear it everyday
How you gon' dog me out?
Don't know what they're talkin' 'bout
They don't even know you
Tell me you're caught up in the streets
As if they follow you
Watchin' your every move
They have too much time on their hands
They say, they say you're bad for me
They say you're no good
Don't want us happy, I say it's jealousy
They just wishin' they could be me
Don't even look at them as friends
More so acquaintances
Just can't be trusted with shit
They're so quick to backstab you
This happened to me many times
They plant seeds of doubt and try to take what's rightfully mine
(Mine)
But I can see right through their attempts
Tryin' to turn me against you
They say you're bad for me
They say you're no good
Don't want us happy, I say it's jealousy
They just wishin' they could be me
And they said we'll break up
Why don't I just wake up?
I say we foul them, it's jealousy
They just wishin' they could be me
They say you're bad for me
They say you're no good
Don't want us happy, I say it's jealousy
They're just wishin' they could be me
They say we'll just break up
Why don't I just wake up?
I say we fool them, it's jealousy
They just wishin' they could be me
