(Drawing) Rings Around The World

Super Furry Animals

You expose the film in me
We're drawing rings around the world
Sooner or later we will melt together
And draw rings around the worldWith all those meteoric stones
And all those sheep they never cloned
OkayI am glowing radioactive
We draw beams around the world
Wish you could see us when we're at our best now
We draw rings around the worldWith cans of Post Water in tow
We're gonna vaporize your soul
Ha haEarth will become Saturn II
With all those rings around the world
Tetsuo II became me and you
With all those rings around the worldAnd all those body hammer blows
We're drawing rings around the world
Ha haRing, ring
Ring, ring
Rings around the world
(Rings around the world)Ring, ring
Ring, ring
Rings around the world
(Rings around the world)Ring, ring
Ring, ring
Rings around the world
(Rings around the world)
...
