

# School's Out (Tall Buildings)

Justin Roberts

Ms. McKenzie it's Clear we've learned a lot this year  
about knights in armor, math, and outer space  
And Ms. McKenzie I know we got a ways to go  
but it's time to put our pencils in the case  
Still I don't wanna say goodbye and I don't wanna make you cry  
but the buses are all lining up outside

And there's no doubt, there's no doubt that  
School's out, School's out  
And there's no doubt, there's no doubt that  
School's out, School's out

Ms. McKenzie it's ok cause summer's on it's way  
We'll be running through the fields and skipping stones  
And I'm not sure what teachers do when we're not with you  
but I know you'll have adventures of your own  
Still I don't wanna say goodbye and I don't wanna make you cry  
but the bells about to ring and then we're gone

And there's no doubt, there's no doubt that  
School's out, School's out  
And there's no doubt, there's no doubt that  
School's out, School's out

And we've grown a few inches taller  
Tall buildings, all tall buildings  
And you made our world big and smaller  
All tall buildings, tall buildings

Ms. McKenzie please be brave we'll stop by or wave  
when we see you between classes in the fall  
And it's not going to be the same but no one's to blame  
We'll pretend we're knights in armor standing tall  
Cause the things learned at the start get written in your heart  
chalkboard lines that no one can erase

it's time for new beginnings  
it's time for extra innings  
it's time for winding paper routes  
see what this great big world's about

Itâ€™s time, Itâ€™s time

And thereâ€™s no doubt, thereâ€™s no doubt that  
Schoolâ€™s out, Schoolâ€™s out

And thereâ€™s no doubt, thereâ€™s no doubt that  
Schoolâ€™s out, Schoolâ€™s out

And thereâ€™s no doubt, thereâ€™s no doubt that  
Schoolâ€™s out, Schoolâ€™s out

And thereâ€™s no doubt, thereâ€™s no doubt that  
Schoolâ€™s out, Schoolâ€™s out

And thereâ€™s no doubt, thereâ€™s no doubt that  
Schoolâ€™s out, Schoolâ€™s out

---
