

# Friends Of The Enemy

## No Use for a Name

Lost in confusion  
not knowing which way to return to the person you know.  
This trepidation makes you take it out on someone else  
you forever, everybody wins  
I don't think so What would the worst thing be if you took the wheel and you lost control?  
No one is safe inside your safety zone  
don't understand but I hear what you're saying  
the repetition of a lonely life.  
Somebody tell me why the heart is waging war against the friends of the enemy of your mind Not your opinion  
sounds like you learn it from a show  
it appears you have lost.  
so sick of marching in your loneliness parade  
stay together underneath a giant tidal wave. What would the worst thing be if you took the wheel and you lost  
control?  
No one is safe inside your safety zone  
don't understand but I hear what you're saying  
the repetition of a lonely life.  
Somebody tell me why the heart is waging war against the friends of the enemy of your mind your imitated  
ordinary life Its when that you can't break free can you take a chance as you let it go happy without the words  
you'll never know?  
no way to lose when your mimicking you're paying a no decision forbidden home  
no one is safe inside your safety zone  
don't understand but i hear what you're saying  
the repetition of a lonely life  
no one is safe inside your safety zone  
don't understand but i hear what you're saying  
the repetition of a lonely soul  
no one is safe inside your zone
