

# Dem Na Like Me

## The Qemists

Chorus:

Dem na like me  
And me na like them  
Dem are are me enemy  
Dem aren't ma friend (x7)

Dem na like me  
And me na like them

Wiley:

(the qemists yo, listen)

I aint one of them boys from the past who aint got the answer

I got the answer

Dance round pricks wanna flow like a dancer

Gangsters put in your crew

There's no drugs

And I won't take yes for the answer

When shots fly you'll be jumpin' like an irish dancer

My name's skemo

So class-ey like eno

Troublemaker like reno

Yo, everything seems cloudy

Everything dropped in the game cause I'm rowdy

Carry on I will take a hammer to your Audi

I met a soldier from Saudi

Not bad round me

Wanna see D try and how me

Cause next week and you still aint ground me

The phone starts ringing when a drive thru grounds me

Where's lethal he aint in boundary

(Chorus x3)

Dem Na like me  
And me na like them

It comes obvious the older you get you can see clearer  
They say that they know the hood

we can't hear ya  
travel on the boarders  
they won't dare to come nearer  
Standin outside the offie  
we don't fear ya

---

Go on fam I dare ya  
See em on the stage yo the crowd don't care  
ya ask if I care fam  
never been a carer  
go in a lambourghini not a new alpha brera

(Chorus x3)

Dem Na like me  
And me na like them

They can't take it  
it sounds too life  
We aint like them  
they stuck in two five  
eskiboy and the girls get some new vibes  
searchin for a force vibe  
but we got the true vibe  
keep telling them  
Aint worth hatin us  
cause you're only gonna end up ratin us  
sometimes in music we don't even do vibes  
true vibes, light rhymes, club lines

I was in the club with amy and sarah  
they was poppin' pills  
I was smokin Jack hera  
God I'm sorry I'm a drug money barer  
shotting shank nasty white in my area  
don't touch it you'll feel like you got kainro  
I smoke weed but I know about kano  
Couldn't help it came back just for the same flow  
I said don't touch it  
it'll make your blain blow

(Chorus x3)

Dem na like me  
And me na like them

(Chorus x4)

---
