## The Briefs

i dont care  
just leave me in my room  
i dont care  
im runnin out of air quick baby  
im going down, down, down, downIm going overboard  
watch me while i drownSo get outta my room  
Leave me alone  
we wont suck real soon  
get off the phone  
and its a suffocation sickness baby  
i turn the tables on you, you , you youim going overboard  
watch me while i drownIm going overboard  
I just cant take it no more  
Its just an underwater trip  
Now i sink or swim  
Im going overboard  
i dont care  
im going overboard  
i dont care  
im going overboard  
leave me alone baby  
im going overboard  
i dont care
