

Engage

Edgewater

So proud, take a bow it's coming 'round
I think I'll give you a taste
You won't forget the day we met
And what was said So now the time has come
To watch your back don't stand alone
And I'll say
Just one last thing, don't turn away Why can't you listen to me?
Find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down in red Afraid to take a stand
It's your last chance to make amends
Now you'll pay for your mistakes
It's your last day Why can't you listen to me?
You'll find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down in red Listen to me
Find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down and now you'll see I don't give a fuck
I don't give a fuck Listen to me, lesson to you
Listen to me, lesson to you
Listen to me, lesson to you
Listen to me break Why can't you listen to me?
You'll find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down in red Listen to me
Find it out
The price is out on your head
And I'm willing to pay
Your time ran out
Your lights go down and now you'll see So proud, take a bow it's coming 'round

You'll find out Listen to me, lesson to you
Listen to me, lesson to you
Listen to me, lesson to you
Listen to me, lesson to you
