Now I'm Without You

Sonia

Now I'm without you
Or why did I doubt you
You're the one for meIn my mind I thought I saw it
You cheating on me
Oh, I was suspicious and I felt the pain
My jealousy rising
I pushed you awayWait for me
I'll never know why you said goodbye
Wait and see
Don't you know things could be better
If only we'd try(Chorus)
Now I'm without you
Oh, why did I doubt you
You're the one for me
Forever and ever
Now I'm without you
There's something about you
That's a part of me
You're all that I needLike a fool I didn't see it
Your love was for me
Don't make me come begging
I'm out in the cold
I miss you so badly
I need you to holdWait for me
I let you go now I paid the price
Wait and see
'Cos you know things will be better
It won't happen twiceRepeat Chorus (2x)Oh, we used to be so close
And it's the nights that hurt the most
Now I gotta say that those were the days
Why can't we be back there againRepeat Chorus to fade
