

# How Did I Get By Without You

**John Waite**

There was a time  
When I thought I knew  
Everything about  
This great big world  
Until I met you  
Into my life  
Like a brand new sun  
Now I find my home  
Inside your eyes  
Wherever you are  
It's hard to say it  
Cause I hide things so good  
But you make me say it  
Like only you could  
I love you  
More than any man could ever say  
I need you  
Baby let me count the ways  
And I'll be here  
I believe in everything you do  
So how did I get by without you  
For the longest time  
Playing games of solitaire  
Taking my wine  
But now I'm with you baby  
And I can dream out loud  
You're as pretty as a picture  
And you make me so proud  
It's hard to say it  
Cause I hide things so good  
But you make me say it  
Like only you could  
I love you  
More than any man could ever say  
I need you  
Baby let me count the ways  
And I'll be here
