Out On Your Own

Cheap Sex

18 years old and you know it all
you're feeling like your life's up against the wall
nobody ever gave nothing to you
time to pack your bags, do what you've gotta do
catch the first train out of this town
fuck off to all those who put me down
no money in my pocket, but that's all right
im out in the town in the city tonight...[Chorus: (x2)]
this is my life
i've never listened to you
never seemed to get the message through
just to bad that you never could see
now im gonna live my life my life just for memet up with the wrong kids in the town
out all night, just hangin' around
mom and dad a thousand miles away
drunk and high all night and day
got busted one night for selling a fix
big price to pay for getting your kicks
now you don't even know who you are
and what you once knew
seems oh so far...
