## **Everything Changes**

## **One Less Reason**

I saw you before you saw me Yeah, it really took me back Can't believe how long it's been Took you awhile to recognize me Oh, imagine that When we were so close back then No, nothing stays the same Love, oh it slips away, it slips away Everything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything changes, everything Somewhere I still have the picture You were in that party dress I remember dancing slow (Hey, I remember dancing slow) Thought those days would last forever How soon we forget And how far away they go No, nothing stays the same Love, oh it fades away, it fades away Everything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything changes, everything We try to hold it in our hands But love falls through like grains of sand One day it's there and then it's gone Gone, it's gone, gone Everything changes, doesn't it baby? It's amazing how time flies Turning the pages of yesterday In only the blink of an eye Everything changes, everything changes Everything changes, everything changes, everything Lyrics provided by <u>https://damnlyrics.com/</u>
