

Never Enough

Belinda

Hey girls
I have a little story to tell
Can you relate to this? Where is my dog, my Louis Vuiton, my Christian Dior?
Where is my car, my Guzzi dress, my private jet?
Where is my house? Oh, not just a house
My lovely mansion in Saint Tropez Shower me with material things
But don't cha buy me all these things to get close to me
I want, I want, I need, I need
Give me every little thing It's never enough you've heard it all before
It's money we adore, oh baby, it's never enough
What makes us all want more, it's never enough, oh baby Where am I from?
Since when did I need so many things
Where are your priorities
But I love these modern luxuries Shower me with material things
But don't cha buy me all these things to get close to me
I want, I want, I need, I need
Give me every little thing It's never enough you've heard it all before
It's money we adore, oh baby, it's never enough
What makes us all want more, it's never enough, oh baby It's never enough you've heard it all before
It's money we adore, oh baby, it's never enough
What makes us all want more
(Is that)
It's never enough, oh baby I want, I want, I need, I need, give me every little thing
Wait girls, we don't need all these material things
We need love, we need friendship
Oh, and maybe those Mark Jacob boots It's never enough you've heard it all before
It's money we adore, oh baby, it's never enough
What makes us all want more, it's never enough, oh baby It's never enough you've heard it all before
It's money we adore, oh baby, it's never enough
What makes us all want more, it's never enough, oh baby Excuse me, which way to the mall?
