Tonight

Iggy Pop

I saw my baby She was turning blue Oh, I knew that soon Her young life was throughAnd so I got down on my knees Down by her bed And these are the words To her I saidEverything will be all right, tonight Everything will be all right, tonightNo one moves, no one talks No one thinks, no one walks, tonightEverything will be all right, tonight Everything will be all right, tonightNo one moves, no one talks No one thinks, no one walks, tonight, tonightI am gonna love her to the end I am gonna love her to the end I will love her 'til I die I will see her in the sky, tonight I will see her in the sky, tonight
