

Nowhere Road

Steve Earle & The Dukers

There's trouble on the subway, there's something on the track
There's a dead-end waiting and we can't go back
So take it to the highway, head back and open wide
Step right up and take a nowhere ride
It's a nowhere road, it's a nowhere road
No matter where it goes it's a, it's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere job and I'm fired
It don't matter what they say
You can't get there going this way
From L.A. to Miami all points in between
Look outside you get the same old scene
You take it to the highway, you travel far and wide
Caterpillars carving up the country side
It's a nowhere road, it's a nowhere road
No matter where it goes, it's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere job and I'm fired
It don't matter what they say
You can't get there going this way
It's a nowhere road and I'm tired
It's a nowhere road and I'm tired
It's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere road, I'm tired
It's a nowhere road, I'm tired
It's a nowhere road, I'm tired
