

# Stone (Ft. Sebastian Kole)

Alessia Cara

So much on my mind  
I think I think too much  
Read between these lines  
unspoken weight of words  
But time comes to rest when you are by my side, it blurs And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone Change in every wind  
The sands of time don't know our name  
Oh, nothing's sure, but surely as we stand  
I promise I will stay the same  
And I've never seen forever  
But I know we'll remain And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone  
(Ooh-ooh-ooh) Be my stone  
In a world uncertain, say you'll be my stone Oh, steady me, be my source of gravity  
While my world's unraveling  
Say you'll never change, ooh, oh And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone  
(Ooh-ooh-ooh) Be my stone  
In a world uncertain, say you'll be my stone
