

Stone (Ft. Sebastian Kole)

Alessia Cara

So much on my mind
I think I think too much
Read between these lines
unspoken weight of words

But time comes to rest when you are by my side, it blurs
And I will follow where this takes me
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone
Change in every wind
The sands of time don't know our name
Oh, nothing's sure, but surely as we stand

I promise I will stay the same

And I've never seen forever

But I know we'll remain
And I will follow where this takes me
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone
(Ooh-ooh-ooh) Be my stone

In a world uncertain, say you'll be my stone
Oh, steady me, be my source of gravity
While my world's unraveling

Say you'll never change, ooh, oh
And I will follow where this takes me
And my tomorrows long to be unknown

When all is shaken, be my safety

In a world uncertain, say you'll be my stone
(Ooh-ooh-ooh) Be my stone

In a world uncertain, say you'll be my stone
