Careful

inc.

on and on and on
i hear it fall
fall to the ground
let it all come down
and on and on
i hear it fall
let it fall to the ground
until it all comes down
until it all comes downform the start of the sin to the fight until the end and right through it
to the one that holds a thread that falls into the hand that holds my headpart of me wants to be careful
but all of me wants be there for it
there for it all
part of me wants to be careful
but all of me wants be there
for it allon and on and on
i hear it fall
down to the ground
let it all come down
and on and on
i hear it fall
let it fall to the ground
until it all comes down
until it all comes downpart of me wants to be careful
but all of me wants be there for it
there for it all
part of me wants to be careful
but all of me wants be there
for it allon and on and on
i hear it fall
fall to the ground
let it all come down
and on and on
i hear it fall
let it fall to the ground
until it all comes down
until it all comes down
