

# Ashes of the Damned

## Abbath

Ashes of the Damned - bourne on pestilential winds  
Zephyrs flay the sky - cinders bath in blaze  
Scorch raw starry vault - Above the earth accursed  
Carnage beyond despair - souls seared in gaze.  
Embers of warriors - fuel legends heroes bled

Seidmen weep the tears Valkyries fear to shed. Ashes of the Damned  
Serpent-tongue sick with thirst - in thy  
venom we immerse.

Necrotic Lord Bless Our Chains - baptise heathen flesh in flames.  
But free of all Rapture's stain. From ash The Damned will rise again!

Rats, spread deadly spore - bubonic swarm.  
Claws, of vermin rake - ancient graves.  
Belch, necrotic maw - kisses blistering.

Melt, Death's face to yours - Decay with Grace. Frost, bite iron lung - demonic storm.

Spit, last heathen words - against the hail.  
Flesh, raise heavy chains - curse the skies.  
Spark, suck lightening strike - the final nail.

Ashes of the Damned - bourne on pestilential winds  
Zephyrs flay the sky - cinders bath in blaze  
Scorch raw starry vault - Above the earth accursed  
Carnage beyond despair - souls seared in gaze.
