FM Vanity

No Fun At All

Hear the voice that goes on forever
So desperately trying to amuse
It's hard to get any bearing
Thank god it's interrupted by the newsProtection is recommended
If you want to avoid insanity
Unicorn your days are over
Frequency modulation vanityFeel your ears bleeding
Cut the waves or you die
Feel your ears bleeding
Turn the knob, say goodbye
Feel your ears bleeding
Cut the waves, do or dieEvery day is another torment
Keep reaching for the switch but it's to far
Can't stand the torture much longer
From every house and inside every car
