

The Truth and Other Lies

Cog

Breath in the fear, who's leaving
I find a way out just in time
It's in the way we say, gouging out a way
For us
Surrounded by hate for us...
Melt away with words, rust with me
To kill a mind lost, fade away
I tried to save the day
Gouging out a way
For us
For us theirs no gain we say...
Better ease on, better reason...
In out, of love...
In out, in out, of love
Kissing, coifing information
Desolved
Kick'en, screaming, icarlation
Desolved
Gouging out a, gouge out a way...
Gouging out a
Gouging out a
Gouging out a way for us...
Better ease on, their the reason,
Better ease on, better reason...
