

The Heart Is Not So Smart (Club Mix Radio Edit)

DeBarge

You know that she is just a heartbreak in disguise
You know that fallin' for the girl is not so wise
But every time your mind wants you to stay away
Your heart just looks the other way
Oh, oh, she's all that you want now
Oh, oh, she's nothin' you need
Oh, oh, but there you go, blame it all on love
You know you should know better
But the heart is not so smart
Can't always trust it, no
The heart is not so smart
Goes where it should not go
Always seems to find
Its way to trouble, no
The heart is not so smart
Oh, no, oh, no
The heart's been broken
It's been bruised and it's been burned
So after that you think a lesson might be learned
But it keeps fallin' for the same lines every time
Sometimes the heart can be so blind
Oh, oh, and when you discover
Oh, oh, she's tellin' you lies
Oh, oh, well, don't you know
That the heart is always last to realize
Because the heart is not so smart
Can't always trust it, no
The heart is not so smart
Goes where it should not go
Always seems to find
Its way to trouble, no
The heart is not so smart
Oh, no
Oh, they say trust your emotions
Oh, oh, your feelings inside
Oh, oh, but when it comes to love
Sometimes it's better that the heart is not your guide
Because the heart is not so smart
The heart is not so smart
The heart is not so smart
Can't always trust it, no
The heart is not so smart
Goes where it should not go
Always seems to find
Its way to trouble, no
The heart is not so smart
The heart is not so smart
Whoa, oh, whoa, oh, oh
The heart is not so smart
No, no, no, no
The heart is not so smart

Whoa, oh, whoa, oh, oh
The heart is not so smart, no, no
Oh, whoa, whoa, whoaThe heart is not so smart
You can't always trust it, no
The heart is not so smart
No, no, no, noThe heart is not so smart
Whoa, oh, whoa, oh, oh
The heart is not so smart, no, no
Oh, whoa, oh, whoa, whoaThe heart is not so smart
Can't always trust it, no
The heart is not so smart
No, no, no, noThe heart is not so smart
Whoa, oh, whoa, oh, oh
The heart is not so smart
